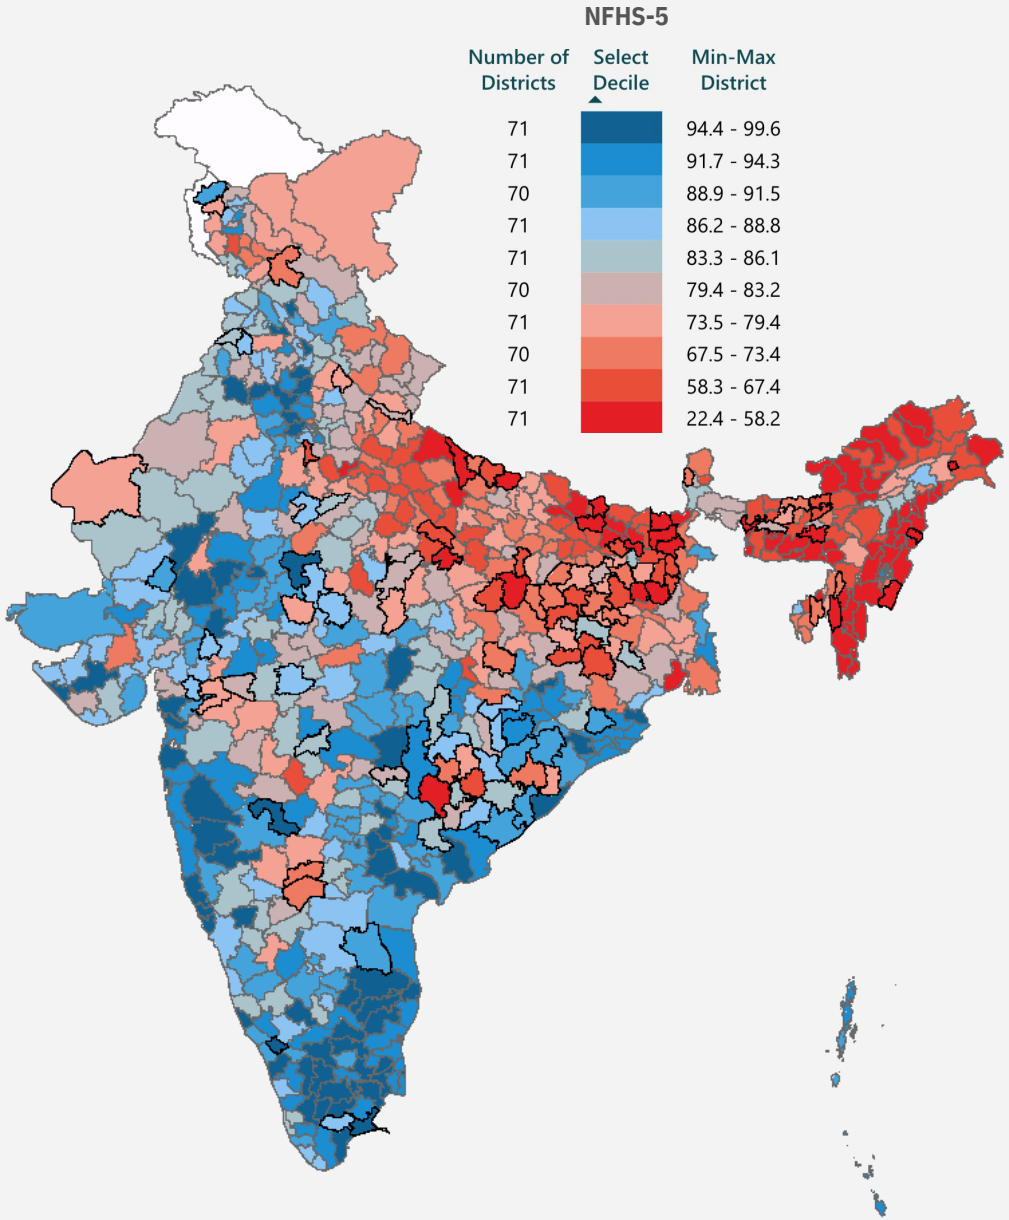
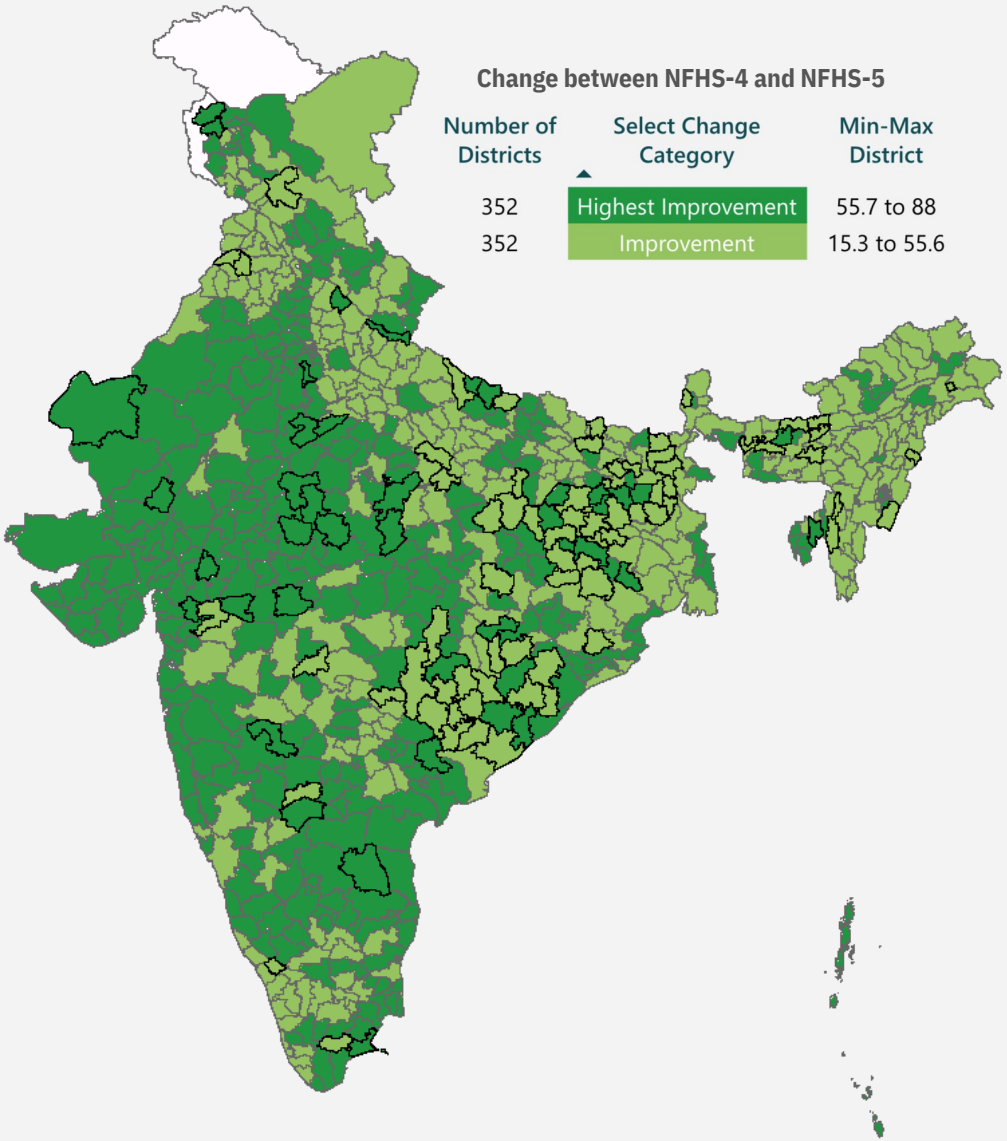
Maternal and Child Health

Postnatal check by skilled health workers



NFHS-5 Legend: Categorizes district outcomes by national decile: red indicates worse and blue indicates better outcomes. The number of districts and minimum/maximum district prevalence for each decile are shown.



Change (2016 -21) Legend: Categorizes districts into two main groups: "Improved" or "Worsened". Two subcategories further split districts at the 50th percentile for each direction for "Improved" and "Worsened".
